

CellScale® Wireless Network Solutions

Model
MSI-9000 Series

- Hardwire to wireless scale conversion
- Multiple scale networking
- Analog to digital conversion
- Wireless scale interface with computers, PLC's and serial devices
- Internal set point relays
- Ethernet connectivity

NEW PRODUCT

Crane Scales

Model
MSI-3360, MSI-4260, MSI-4300,
MSI-6260CS and MSI-9300 Series

- Heavy duty designs up to 250 tons
- High precision and trade approved (NTEP/OIML)
- Torque resistant designs for use with fixed hooks and powered rotators
- RF wireless remote control, monitoring and networking
- Intrinsically safe and Factory Mutual approved
- Tailored designs for unique applications

Tension Dynamometers

Model
MSI-7200

- Heavy duty designs up to 250 tons
- Battery powered and portable
- Peak Hold and programmable Set Points
- Optional portable shipping and storage case

Over/Under Packing Scales

Model
MSI-6000 and MSI-6000MC
(Motion Compensated)

- All stainless steel construction
- USDA approved and washdown safe
- High precision and trade approved (NTEP)
- Product ID and statistics management
- Motion compensated models for offshore use

Lift Truck Scales

Model
MSI-3700
(Includes Digital Indicator)

- Heavy duty design with low lift loss
- High precision and trade approved (NTEP)
- Quick, easy installation
- User friendly operation
- RS-232 data output with real time clock and full output formatting
- Versatile feature set with multiple options

Digital Indicators

Model
MSI-3550, MSI-3650, MSI-3750,
MSI-9750A and MSI-9850

- Industrial grade models
- High precision and trade approved (NTEP)
- RF wireless remote control, monitoring and networking
- All environment tolerant (NEMA 4/IP66)
- Internal set point relays
- Ethernet connectivity

Portable Wheel/Axle Weighers

Model
MSI-5300 and MSI-5400 (shown)

- Lightweight and user friendly
- High precision and type approved (NTEP)

"We weigh quality first"
